#### ■ **COURSE OBJECTIVES:**

- Enable Radiation Protection Officers to carry out the role assigned to them, as defined in the provisions of the French Labor Code.

#### ■ **TARGET GROUP:**

- Any person assigned the role of "Radiation Protection Officer" by their employer, according to the definition in Article R 44 51-103 of the Labor Code.

#### ■ **CONTENT (Appendix 1 of the Ministerial Order of 26 October 2005):**

- Unit 1: ionizing radiation and biological effects.
- Unit 2: radiation protection for employees, principles, protection and inspection means.
- Unit 3: regulations.

#### ■ **TEACHING APPROACH:**

- Active, dynamic and participative, with a mix of theory presentations, practical exercises, trainer-led activities and case studies.

*Evaluation: oral and written test.  
Certificate for successful completion of the course.*
